DETAILED ACTION

Applicant's reply to the original restriction requirement of 1/30/06 is not complete since Applicant did not state which species is elected, and a listing of which claims are readable thereon. A one-month period for reply is set.

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Species I: shown in Figures 1, 2, and 10; Species II: shown in Figures 3-8; Species III: shown in Figure 9; Species IV: shown in Figure 11; Species V: shown in Figures 12-15; Species VI: shown in Figures 16-20; Species VII: shown in Figures 21a,b,d; Species VIII: shown in Figures 21c,h; Species IX: shown in Figures 21e; Species X: shown in Figure 21f; Species XI: shown in Figure 21g; Species XII: shown in Figure 21i,j; Species XIII: shown in Figure AOK.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine Moran whose telephone number is 571-272-4990. The examiner can normally be reached on M-F.
